

Zadar

HOW TO GET TO ZADAR?

By plane

The International Zadar Airport is located in Zemunik (12 km from Zadar) and offers flights to Zagreb (the main Croatian airport) and to a large number of European cities directly from Zadar.

www.zadar-airport.hr

By bus

Busses connect Zadar with all larger cities in Europe: Ljubljana, Trieste, Vienna, Zürich, Munich, Rotterdam and others.

www.liburnija-zadar.hr/

By ferry

The ferry port in the city centre connects Zadar with Ancona (Italy) and some ferry ports on Croatian islands and harbours (Rijeka, Dubrovnik, Pula etc.).

www.jadrolinija.hr

By car

Zadar can be reached by car using the highways A1 from direction of Zagreb, A6 from direction of Rijeka or driving down the coast from Rijeka. The approximate distance in kilometres between Zadar and some European cities:

- Zagreb 270 km
- Trieste 300 km
- Graz 520 km
- Vienna 705 km
- Berlin 1400 km
- Milan 700 km
- Munich 800 km
- Paris 1700 km

More useful information

"It may be that the loveliest inscription of Zadar's exceptional sunset was written by the famous Alfred Hitchcock. On the occasion of his visit to Zadar, in May 1964, while observing the luxurious game played by the sun the Maestro said: „Zadar has the most beautiful sunset in the world, more beautiful than the one in Key West, in Florida, applauded at every evening.“

Few words...

Zadar is home to about 75.000 inhabitants, it is the capital of the Zadar County and a strong maritime, tourist, harbour and industrial city on the Middle Adriatic. The old part of the City, located on a small peninsula, is an important historical town, rich with world renowned heritage visible at every step. Founded on a 3,000 years old tradition, the Zadar region has developed to the extent that today covers 14% of the total land surface of the Republic of Croatia and around 12% of the territorial waters, with more than 300 smaller and larger islands, better known under the name of Zadar archipelago. The region offers beaches with crystal clean water and other natural beauties such as nature parks Telašćica at the Island of Dugi Otok, Lake Vrana and Mount Velebit, as well as national parks Kornati Islands, Paklenica and Krka waterfalls.

Currency

Croatia hopes to join the euro in 2019, but until then the national currency is the kuna, with one kuna equal to 100 lipas. You can exchange money at any of the country's banks, bureaux de change, post offices and at almost all travel agencies, hotels and campsites. The majority of establishments and ATMs will also accept credit cards such as Visa, MasterCard, American Express and Diners, etc.

Travel Documents

Your trip to Croatia doesn't mean visa headaches either. In most cases, the only form of ID required is a valid passport. And if you're an EU or US citizen, you can also use your national ID card.

Croatian customs regulations are almost entirely in harmony with EU standards.

Climate

The areas along the Adriatic coast have a pleasantly mild Mediterranean climate with a large number of sunny days, summers are hot and dry.

Average temperatures in the Littoral (Adriatic Coast) are 22 to 25 °C in July. The sea temperature is approximately 25 °C in summer.

Power supply

220 V, frequency 50 Hz

Preconference Workshops

- **Multilevel modeling in Mplus**, *Chris Stride, UK*
- **Mining Big Data to Extract Patterns and Predict Real-Life Outcomes**, *Michal Kosinski, USA*

University of Zadar

University of Zadar

Zadar is an ancient university city: as early as in 1396 the university was founded here, which was active until 1807, and since then other institutions of higher education performed their activities until the foundation of the renewed University of Zadar in 2002. The tradition of more than 600 years (the founder of University Iadertina was the supreme head of the Dominican order Raimund de Vinies form Capua) speaks for itself and it classifies this city with the oldest university cities in Europe.

The University of Zadar is the largest fully integrated university in Croatia. More than 5500 students are enrolled in the undergraduate, graduate and doctoral studies. There are about 600 employees at the University, 450 of them members of the academic staff holding scientific-teaching, teaching and assistant titles.

As one of the youngest universities in Croatia (though historically the oldest), the University of Zadar points out as one of its priorities not only the international but also the interuniversity cooperation with all the related universities and institutes in Croatia as well as the development of such mechanisms and methods that will facilitate the establishment of international cooperation.

The Department of Psychology was established at the Faculty of Philosophy in Zadar at the beginning of the academic year 1978/79, when the first generation of single-subject students of psychology was enrolled.

Today, there are 20 permanently employed staff teachers and young assistants.

In some way, the main achievements are shown in the area of research, teaching, editing, organization of scientific conferences and international cooperation.
