GOING DIGITAL

MEET THE DIGILING
E-LEARNING HUB

29 AUGUST 2018

UNIVERSITY OF ZADAR

Satellite workshop of the "Information Technologies and Media" Summer School (ITMed2018)

PROGRAMME

9:30 - 11:00 Welcome & Introduction round

Who is a Digital Linguist and how DigiLing can help you become one
(Špela Vintar, University of Ljubljana)

Brief presentation of DigiLing courses:

- **Variability of Languages in Time and Space**
Univerzita Karlova, course instructors: Zdeněk Žabokrtský, Anja Nedoluzhko, Magda Ševčíková
- **Introduction to Text Processing and Analysis**
Univerzita Karlova, course instructor: Lucie Chlumská
- **Post-Editing Machine Translation**
Johannes Gutenberg Universität Mainz, course instructors: Jean Nitzke, Anke Tardel
- **Introduction to Python for Linguists**
Sveučilište u Zagrebu, course instructor: Petra Bago
- **Computational Lexicology and Lexicography**
Sveučilište u Zagrebu, course instructor: Nives Mikelić Preradović
- **Localisation Tools and Workflows**
University of Leeds, course instructor: Caroline Reiss
- **Mining and Managing Multilingual Terminology**
Univerza v Ljubljani, course instructor: Špela Vintar

11:00 - 11:30 Coffee

11:30 - 13:00 Hands-on session: Course testing

Workshop participants are invited to review, test and evaluate DigiLing course materials and/or consult course instructors for details.

13:00 - 14:00 Lunch

14:00 - 15:00 Review and feedback

Structured feedback on the outputs and potential of DigiLing from the DigiLing Advisory Board:

Prof. Dr. Matjaž Debevc
Dr. Davor Orlić

How to get skilled in Digital Linguistics?
The aim of the workshop is to present this exciting emerging discipline and a set of open online courses developed within the DigiLing project.

DigiLing is an Erasmus+ Strategic Partnership project (2016-2019) which designed a model digital linguistics curriculum to serve as the road map for the evolution of European university programmes conforming to the industry demands. To respond to these demands, the project carried out a labour market needs analysis among European companies. A set of key digital competencies was identified and an open e-learning hub was established with courses covering these skills.

All our e-learning materials are freely accessible at learn.digiling.eu – come give them a try!
