DIH?

- Digital Innovation Hubs are one-stop-shops that help companies to become more competitive with regard to their business/production processes, products or services using digital technologies.
- They are based upon technology infrastructure and provide access to the latest knowledge, expertise and technology to support their customers with piloting, testing and experimenting with digital innovations.
- DIHs also provide business and financing support to implement these innovations, if needed across the value chain.
- As proximity is considered crucial, they act as a first regional point of contact, a doorway, and strengthen the innovation ecosystem.
- A DIH is a regional multi-partner cooperation (including organizations like RTOs, universities, industry associations, chambers of commerce, incubator/accelerators, regional development agencies and even governments) and can also have strong linkages with service providers outside of their region supporting companies with access to their services.

Transfer znanja

- Xgain
- Eurostars
- Horizon

Inovacijski projekti

**Advanced Digital Skills on Blockchain for
Trusted Food Supply Chains**

Funded by
the European Union

Inovacijski projekti

Croatia-Cyprus Excellence Hub on Eco-Innovative Technologies for Healthy and Productive Seas

Horizon Europe Program

Funded by
the European Union

Inovacijski projekti
